

An Investment in Your Health: LivingWell Health Clinics

LivingWell

Health Clinics brought to you
by the Kentucky Personnel Cabinet

If you've visited an onsite health clinic recently, you may have noticed a new name and look. These clinics – the LivingWell Health Clinics brought to you by the Kentucky Personnel Cabinet – are now managed by Premise Health, a leading worksite health and patient engagement company.

What does this mean to you?

- The same great quality and care you're used to – high quality primary and preventive care.
- The same great nursing staff providing that care, with the addition of one new nurse and one new medical assistant.
- The same locations, hours and contact information, with a new clinic opening soon in the 300 Sower building.

Patients should expect a couple of minor changes during the transition. Those include:

- During your first visit to a clinic under the new provider, you will be asked to complete some paperwork. This should only take a few minutes.
- Online scheduling is currently unavailable, but is expected to return shortly. In the meantime, simply call a clinic for an appointment. Locations and contact information are listed on this message and [on the web](#).

Look for more updates on the LivingWell Clinics brought to you by the Kentucky Personnel Cabinet soon! Thank you for your patience during this transition.
